

## TRAY SERIES

### Tray Type Heat Press

#### PRODUCT INFORMATION

Our "Tray" press machines, with excellent heat distribution, provide an impeccable performance in your business. Forward / Backward movement is enabled by a timing belt pulley. Double plate structure saves substantial amount of time. High pressure is mechanized by pneumatic system with adjustable print pressure. Hydraulic system requires no air compressor. You can prepare your second plate for sublimation while other plate is busy doing printing. 3 different digital thermostats maintain the temperature precisely. You can adjust the amount of time that pressure is applied on fabric for with a digital timer. Dynamic Series are also equipped with a digital counter that allows you to keep track of the number of finished products. Plates are positioned in working height standards. Dynamic Series press machines comply with CE safety standards.

#### OPERATION TYPES

- Piece Digital Paper to Piece Fabric
- Piece Digital Paper to Hard Surfaces ( Wood, Glass)

#### OTHER SCOPES OF USE

- Stone Print
- Flock Print
- Foil Print
- Vinyl Print
- Serigraphy Print
- Offset Print

#### OPTIONAL ACCESSORIES

- Smoke Suction Unit
- Teflon Plated Upper Chin

## TECHNICAL DATA

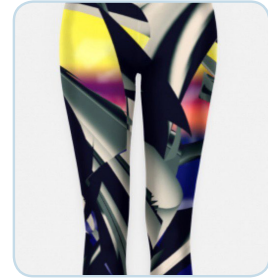

Heating System	: Heating Coil
Max. Temperature	: 230c°
Average Heating Time	: 20 min.
Power Supply	: AC 220V – 1Ph 50/60 Hz.
Air Intake	: Min.6 – Max.10
Applied Pressure	: 600g/cm2 – 10 bar g/cm2
System Type	: Hydraulic
Electrical System	: AC İntör
Safety	: Emergency button
Warranty	: 2 years (User Fault Exempted)
